

WEC 2019-2020 MEDIA GUIDE

WEC

FIA WORLD ENDURANCE
CHAMPIONSHIP

A PARTNERSHIP

WELCOME

On behalf of the FIA, welcome to Season 8 of the World Endurance Championship, the first time the WEC starts in September and concludes at the 24 Hours of Le Mans next June. The partnership and close working relationship between the ACO and FIA continues to provide a strong and stable base that has allowed the championship to evolve and grow since its introduction in 2012.

The 2019/20 season is the final one for the LMP1 category. We are pleased to welcome back Toyota, the Japanese manufacturer remaining in the category to develop their hybrid power system. Toyota has been joined by two private teams in the top endurance category. Endurance racing has always allowed manufacturers and private teams to compete against each other and with the new regulations in place to equalise the performance of the different technologies, the new season promises to be very interesting.

In 2017 the LMGTE Pro category became a full FIA World Championship, with Ferrari being the first recipient of the title. In June 2019 Porsche took the honours and returned to take up the challenge from Ferrari and Aston Martin over the eight races across Europe, Asia, North America, South America and the Middle East.

With strong numbers and top-level teams and drivers, in both the LMP2 and LMGTE Am classes, the grid for the 2019/20 season is looking very good.

Season 8 of the FIA WEC will see a return to Bahrain and Sao Paulo alongside Silverstone, Fuji, Shanghai, Sebring, Spa-Francorchamps and Le Mans, which all featured on last season's calendar. Held on five different continents, the WEC is a true 'world' championship. The season finale will be at the 24 Hours of Le Mans, the perfect conclusion to the FIA World Endurance Championship season.

The WEC teams and drivers continue to be great supporters of the FIA Action for Road Safety Campaign. This year we will continue to work together to increase awareness of the importance of road safety and help reduce the number of deaths that we see on our roads each and every day.

I am sure that the FIA World Endurance Championship will continue to provide an impressive spectacle on the world stage, and I look forward to following the championship from now until Le Mans next June.

With best wishes

JEAN TODT

President of the FIA

WELCOME

The challenge and range of emotions offered by endurance racing is unique in motorsport. We all feel them, and we all see them, season after season.

The 8th edition of the FIA World Endurance Championship will bring to us all another range of glorious moments in which teams, drivers and technicians will entertain and fascinate us all. This human element of endurance racing is vital to communicate with our existing and future audiences.

Hypercars will soon be with us, and there is one final season to enjoy of Hybrid and non-Hybrid LMP1 racing. This is an era of racing which will go down in history as both memorable and intoxicating.

Through the strong working partnership that exists between the FIA and the Automobile Club de l'Ouest, the WEC remains at the pinnacle of endurance racing championships. One of the most pleasing aspects of our work is to witness the evolution of entrants and new driving talent through the European Le Mans Series, Michelin Le Mans Cup and Asian Le Mans Series to world championship level.

The 24 Hours of Le Mans remains as the pinnacle of all our championships, attracting the crème de la crème of endurance talent across the world. The expansion of the grid to an impressive 62 starters in 2019 illustrates the deep affinity and desire that competitors have to take on one of the greatest tests and challenges in racing.

As always, the ACO backs and supports new technology and new mobility initiatives which is why we have actively promoted the Hydrogen powertrain which demonstrated its capabilities in recent months. We will continue to ensure relevancy in the automotive industry, it is vital that we do so for the future of our sport.

The ACO looks forward to your continued support during Season 8 and beyond, into a new dawn in 2020-21 when Hypercar regulations arrive. We look forward to seeing you all in June at Le Mans for the grand finale to this magnificent season, at which time we will not only crown our winners of the greatest endurance race, the 24 Hours of Le Mans, but also celebrate our World Champions.

PIERRE FILLON

President of the Automobile Club de l'Ouest

WELCOME

Since it was introduced in 2012, the FIA World Endurance Championship has continued to evolve and adapt to the changes in our sport and in the wider automotive world.

As the President of the FIA Endurance Commission I have the privilege of working with an eminent group of people from a variety of backgrounds, both from the FIA and the ACO, who ensure that the regulations provides a platform that will attract the top manufacturers, teams and drivers and keep the WEC at the forefront of world motor sport.

The 2019/20 FIA World Endurance Championship will continue to offer great sporting entertainment while providing a platform for manufacturers and sponsors to market their brand to a global audience.

This season is the final one for the LMP1 class, as we look forward to the new Hypercar class that will be introduced in 2020. This year's regulations, developed jointly by the FIA and ACO, will provide a playing field that will be as level as possible to allow manufacturers and private teams to compete against each other on each of the eight venues we will visit and provide a great spectacle for the final season of these incredible cars.

As we approach the start of the new campaign we are looking forward to a calendar that will begin at Silverstone and conclude at the 24 Hours of Le Mans, with some fantastic circuits around the world in between. I am sure Season 8 will continue to underline the FIA World Endurance Championship's position as the world's greatest sportscar series.

RICHARD MILLE

President of the FIA Endurance Commission

WELCOME

Everyone involved in the organisation of the WEC wishes you a very warm welcome to Season 8 which promises to be a great 10 months of racing for our competitors, fans and, of course, the media, with one of the greatest sporting events in the world, the 24 Hours of Le Mans, as the grand finale to our 8-race season.

We have an entry list which includes some of the biggest and best-known manufacturers in the world and teams who know how to compete with excellence, sportsmanship and a competitive spirit which knows no limit.

Our teams, partners and stakeholders have a unique stage on which to compete, at premier race circuits around the world. We are proud to return for the 8th consecutive time to well-established favourites such as Silverstone, Fuji, Shanghai and Spa, and of course once again to Sebring in the USA. Super Sebring in March 2019, with our friends from IMSA, was one of the highlights of the Super Season and everyone is excited about the second joint edition in March 2020.

This season we will also be returning to two further favourites in South America and the Middle East which respond to the appeal of competitors, partners and fans – São Paulo and Bahrain. With Le Mans as the crescendo and grand finale next June, we can't wait to be at each and every one of these venues.

An innovation for Season 8 will be the change in length to some races, with a varied calendar of 4-hour races, 6, 8 and, of course, the grand finale of 24 hours. Each suits the market we are racing in, it mixes up strategy and unpredictability, and we are confident that this mix of different race formats will be a success.

While some things change, our core values at the WEC do not. We are committed to provide a championship that it is technological, competitive, innovative, exciting and global, and of course these are values which are important to the media as well.

To help you, you will find in this online guide information about the 2019-2020 FIA World Endurance Championship including an entry list, circuit information, statistics on past seasons and records and video highlights. You will also find contact details for our Media and Communications Department who are all ready to help you in whatever way possible.

We look forward to seeing you at our races during 2019 and 2020. Welcome to the World Endurance Championship, welcome to our world of pure motorsport.

GÉRARD NEVEU

CEO World Endurance Championship

ROLEX

HIGHLIGHTS 2018

The home of British Motor Racing and the home of the WEC: Silverstone. The famous British circuit in Northamptonshire will once again host the opening race of the season, this year the 4 Hours of Silverstone. The winners will receive the prestigious and historic Royal Automobile Club Tourist Trophy, awarded in competition since 1905 and the world's oldest motorsport trophy.

With the fourth round of the European Le Mans Series taking place at Silverstone the same weekend, fans, TV viewers and media alike are treated to a true festival of endurance racing. Up to 30 cars on track together in the WEC ensures non-stop action, demonstrations of speed, skills and the very best racing in the hands of some of the world's leading teams and drivers.

HIGHLIGHTS 2018

Endurance racing has a rich history at Fuji Speedway, dating back to 1982 when a round of the Sportscar World Championship was contested. Located at the foot of the world-famous Mount Fuji, the track was rebuilt in 2005 to a high standard, fast layout.

It has hosted a round of the World Endurance Championship every year since 2012, and fans flock in their thousands to see their heroes and cheer Toyota Gazoo racing to success. The Team representing the manufacturing giant has won every year so far except 2015.

HIGHLIGHTS 2018

In 2012 the inaugural WEC season concluded at the Shanghai International Circuit with the first endurance racing organised at global level in the economic capital of China. The tough and demanding circuit, with its impressive infrastructure, provides the perfect stage for the tens of thousands of Chinese fans who have turned out every year since.

There has been a minimum of one entry in the WEC registered under the Chinese flag since 2016 which has served to heighten interest further.

8 HOURS OF BAHRAIN

14 December 2019

HIGHLIGHTS 2017

In Season 8 the World Endurance Championship returns to the Middle East for a longer, 8-hour race. Situated in the desert, the Bahrain International Circuit provides a stunning backdrop to round out the first half of the season, with the added challenge of racing into the night. The circuit is demanding for the drivers, with a sandy and sometimes slippery track surface, the facilities are second to none and the welcome is as warm as the weather.

Often the scene of dramatic races, with unexpected results, the venue is a favourite for everyone and offers fans an action-packed weekend of racing, rounded off by the official WEC Rookie Test the day after the race.

6 HOURS OF SÃO PAULO

01 February 2020

HIGHLIGHTS 2014

The WEC returns to the vibrant Brazilian city for the first time since 2014 for the 6 Hours of São Paulo. Promoted by the N Duduch Organisation, and with Bruno Senna as event Ambassador, the intimidating Autódromo José Carlos Pace, Interlagos, located on the outskirts of São Paulo, is a jewel of a circuit which has for decades challenged drivers and teams from every corner of the globe.

There is nothing quite like an endurance race in front a large, enthusiastic Brazilian crowd – the atmosphere is electric!

1000 MILES OF SEBRING

20 March 2020

HIGHLIGHTS 2019

Sebring International Raceway is America's oldest road racing track, dating back over six decades. A former airbase, well known in the racing world for its bumpy, multi-surface layout, it was first used for a 6-hour race at the end of 1950. Sebring burst onto the sports car racing scene in March 1952 when it hosted the first 12-hour endurance race – an event still held, with international prestige and renown.

The Florida track is in the history books as the venue for the first ever WEC race in 2012 and, in 2019, the World Endurance Championship returned for a hugely successful joint event with IMSA – Super Sebring – a festival of racing set to be repeated in Season 8.

6 HOURS OF SPA-FRANCORCHAMPS*

02 May 2020

HIGHLIGHTS 2019

Since 1966, legendary endurance racers have competed on the Spa-Francorchamps circuit in the Belgian Ardennes generating exciting and spectacular races. The final event before the 24 Hours of Le Mans, the race is for the competitors a dress rehearsal for the biggest race on the calendar.

Subject to often unpredictable weather conditions, Circuit de Spa-Francorchamps is a track that thrills like no other and is a firm favourite of every driver in the world. Technical, demanding, with challenges for drivers and strategists alike, the sight of prototypes and GT cars thundering into Eau Rouge is one never to be forgotten.

24h LE MANS®

13-14 June 2020

HIGHLIGHTS 2019

One of the greatest and best-known spectacles in the world, and the main event on the WEC calendar, now also the grand finale to the season: the 24 Hours of Le Mans. First run in 1923 by the Automobile Club de l'Ouest, the traditional June date offers fans an unparalleled social and sporting occasion and competitors the opportunity to earn bonus Championship points which are key for title challenges.

Le Mans allows teams and drivers to measure themselves against their peers, with the crème-de-la-crème of driving, engineering, organisation and marketing talent displaying their skills on a stage which is recognised and followed on a global basis. With over 970 media in attendance, broadcasts to 137 countries and a field of 60 entries, the event continues to surpass all others.

FIA WEC SPORTING REGULATIONS: WHAT'S NEW FOR 2019-2020?

WHAT'S NEW FOR SEASON 8

There are very few changes to the 2019-2020 regulations following the Super Season, but below are some which are of interest or relevance. The full Sporting Regulations can be found [HERE](#).

DRIVER CATEGORISATION:

Given the special features of the FIA World Endurance Championship calendar, for any driver entering a Competition for the first time in the season before 31 December 2019, the driver's categorisation that will be taken into account will be the latest one published prior to the administrative checks of the first Competition he/she is entering and will be applied until the end of the season in June 2020.

TYRE ALLOCATIONS FOR DIFFERENT LENGTH EVENTS:

Dry weather tyres:

	4H RACE		6H RACE		8H RACE		10H RACE		12H RACE		24H RACE	
	FREE PRACTICES	QUAL + RACE	QUAL + RACE	QUAL + RACE	QUAL + RACE	QUAL + RACE	QUAL + RACE	QUAL + RACE	QUAL + RACE	FP + QUAL + WU	RACE	
LMP1-HY	12	14	18	26	30	34	24	48				
LMP1	12	14	18	26	30	34	24	48				
LMP2	12	14	18	26	30	34	24	56				
LMGTE PRO	12	14	18	26	30	34	28	60				
LMGTE AM	16	22	26	34	38	42	28	60				

WET WEATHER TYRES:

Unless specifically authorised in the present Regulations, wet weather tyres may be used only after the track has been declared 'wet' by the Clerk of the Course / Race Director. The number of wet weather tyres usable during a Competition is not limited.

BAN ON WIND TUNNEL TESTING IN THE LMP2 CATEGORY:

Competitors entering an LMP2 car are not allowed to take part in any kind of wind tunnel testing.

PIT STOPS:

Wheel change operations are not allowed during refuelling operations – all other areas of pit stops remain the same.

DRIVERS' MINIMUM AND MAXIMUM DRIVING TIME:

Below are tables corresponding to the different duration of races.

	Course de 4 heures - 4 hours race			
	LMP1	LMP2	LMGTE Pro	LMGTE Am
Minimum driving time	*		*
